Platform Automations & Integration

We provide full scale, bespoke solutions to improve the effectiveness of Google Marketing Platform (GMP) and/or non Google solutions, through the use of custom built solutions.

Who needs this?

- Organisations looking to improve their use of ad tech platforms through advanced, customised solutions

What's included?

- Provide an Initial consultation around overall goal and plan

- Build a project plan

- Create project solution including coding of custom solutions (where required)

- Conduct QA and testing of development

- Implement solution to live environment

- Provide overall Project Management for deliverables in the project

- Optionally provide ongoing support and maintenance

FiveStones

Why Work With FiveStones?

- Experienced GMP, media and data experts to develop a best in class solution

- We use comprehensive frameworks, custom builds and connect external data to help improve efficiency and achieve data-driven decisions

- We use proprietary toolkits to accurately and efficiently achieve business goals
